FURTHER INFORMATION ON ST. JODER

We have made previous reference to the fact that the name YODER traces back to St. Theodore, the first bishop of Octodorus in the Martigny-Valais district of southern Switzerland. Swiss scholars maintain that the name St. Theodulus of medi eval times, as well as the French Theodule, are but variants from the original Theodorus. Dr. Eugen Gruber of Switzerland stated that in earlier times the accent was on the third to last syllable and the interchange of 1 and r was frequently made. This change in accent is the only linguistic shift in the derivation of the name, according to Dr. John Howard Yoder, distinguished theologian of Elkhart, Indiana, and he explained step by step how the evolution from Theodorus to Joder had become a matter of simple norma l pronunciation. It may be a surprise to those Yoders who thought their name came from a clan of yodelers in the Alps to discover that the fact is stranger than the fiction, but the Swiss leave no doubt as to the derivation of the name.

In the archives at Sion in Switzerland can be found the doctoral dissertations of Dr. Gruber about the instituted grants made in the name of the saints in the diocese of Sitten in the Middle Ages. In one section is a scholarly account of St. Theodore, who, he wrote, "stood at the head" of a line of bishops in the Wallis country (Valais). He probably meant in time but perhaps also in importance. St. Theodore came into special prominence when he discovered the bodies of the martyrs of Theba and started the work of building a basilica in their honor. As time went on and legends were handed down, especially by "one wandering monk," other St. Theodores crept into the folktales of saints belonging to later times—who also were supposed to have discovered the remains of the martyrs. In the liturgical festivals they eventually also took on the person and character of the first saint to the point that esteem for them did not need to be altered when the authentic St. Theodore was again discovered.

With many footnotes Dr. Gruber went into references to St. Theodore found in various documents, especially records listing the donations to his altars, the churches and chapels built to his honor, and the brotherhoods established in his name. By the thirteenth century there was more reference to his own remains, and by the fifteenth century emphasis centered more on the veneration of the saint himself. Not only did the Theodore cult spread into neighboring dioceses, but the people of the Valais took it with them when they migrated to other valleys. He was increasingly honored in the French sectors, and churches and churches began to appear all along the Upper Rhone. The inner Swiss took up the cult of St. Theodore for the most part after the fifteenth century.

In later issues we hope to tell more stories about St. Joder and to describe some St. Joder memorabilia. We wish here to mention only one item, one of several sent to us by Karl Joder of Ludwigshafen, West Germany, after receiving a copy of the YODER NEWSLETTER.
Dear Fellow Subscribers,

Going over the questionnaires it shows many of you have indicated a willingness to share genealogical information.

We have discussed the possibility of starting a repository for the many less-known Yoder lines. If we could get as many individual family lines together, it is possible to form a meaningful source of information for all who seek their ancestry.

A hearty “Thank You” to those who have already made such contributions of their line.

The Editors

At this writing we’re aware of the following family reunions held this past summer. We hope readers will give full particulars of coming reunions for 1984 so that we can inform everyone.

Conrad Yoder Reunion—Pickney NC in Aug.
Mose H. Yoder “Belleville PA in Aug.
Reuben Yoder “ at Shipshewana IN in Aug.
Noah C. Yoder “ in Northern IN in June
Rev. Paul D. Yoder at Lancaster PA in June
John T. Yoder Reunion at Kalona IA in Aug.
David S. Yoder Reunion at Kalona (?) in July
Moses H. Yoder Reunion at Belleville PA, July 13-14, Moses’ 150 birthday.
Menno S. Yoder Reunion—Shipshewana in July.
We will accept brief notices of 1984 YODER reunions. Send name of “Whose”, date, and place and it will be announced in Issue #3.

We’ve received enthusiastic response from the Conrad Yoder descendants in North Carolina. A lot of interesting material was submitted. Lack of space in this #2 issue for background on this group makes us plan one for Issue #3 this coming spring.

The same goes for the Oley Yoders, Yost and Haines, pioneers, from Palatinate, Germany, whose father was born in Steffisburg, Switzerland. Interesting reading will await you readers next spring.

??ANY YODER GENEALOGIES IN PRINT???

There have been a number of Yoder genealogies printed over the years and much Yoder data included in works on other families. Most of these were assembled by folks for their immediate families and are now out of print. We would like to publish reviews of new family works as they are produced, and to identify genealogies still available. Please let us know of any you are aware of.

The Editors

An explanation of the logos used at the heading of this newsletter. Since all of our origins were rooted in Canton Bern, its emblem on which the bear is embossed is used. To the right is depicted the Holy Bible Lamp of learning, and the grain sheaf. These items represent that the Word seemed to be the underlying foundation of the faith of our forbears which produced many scholars, tradesmen and husbandmen which are necessary for the foundation on which a last- ing culture may be nurtured.

Dear Fellow Subscribers,

We’re sorry to be unable to publish only a part of the material received. We appreciate your sharing with us! We hope future issues will afford space for all. Keep it coming.

We will still send a FREE copy of Issue #1 to anyone who sends a self-addressed business-size envelope (SASE) to YODER NEWSLETTER, P. O. Box 594, Goshen IN 46526.

A policy statement is in order to inform you that this newsletter is strictly non-profit. The editors have and are willing to “stick our necks out” to keep things rolling and so far things are looking OK. We want to give you all your money’s worth and help by continuing to subscribe. Also why not consider sending in a gift subscription to a friend or relative? It would insure the continued success of this venture.

As this goes to press we have 290 paid subscriptions to the YNL. Non-Yoder names run at around 42% of our subscribers’ list.

Many of you have expressed a willingness to contribute news, history, etc. towards the contents of the YNL. Encouraging notes and letters have also spurred us to greater effort. All these gestures of good-will are well taken and thank you much. If you have something you would like to contribute, send it to the editors at YODER NEWSLETTER, P. O. Box 594, Goshen IN 46526.

Whenever one writes to anyone asking for information or some favor it should be remembered that such a request should be accompanied by a self-addressed stamped envelope (SASE). People in a position to help others find overburdening postage bills and some don’t bother to answer unless a SASE is enclosed. Others grit their teeth and do. This is just to inform those who never thought of this before. Just a friendly reminder.

The first request for a free copy of the YNL was from Lamar and Lois Ann Nast. They are the editors of the MENNONITE FAMILY HISTORY, P. O. Box 171, Elverson PA 19520. This is an excellent source of information to searchers of roots. They also are subscribers of YNL.

Mrs. Esther E. Lamberson of Elkhart IN was the first respondent to subscribe to YNL. Hats off to you, Esther! When sending in a query be sure and give both husband and wife’s names, date of birth, parents and grandparents’ names. Of course, it is not always possible to furnish all of the above facts, but give as much as possible. Be sure and give your name and address.

Subscription for YODER NEWSLETTER is $3.00 for Issues #2 and #3 (Spring ’84).
We must not forget women played a vital role in being proper administrators and contributors in the struggles of all times in history. This following anecdote is a good example of what a wise and brave woman did in the face of danger during tumultuous times.

The full story was told, probably by one who we now would call an arrow reporter and was graciously submitted by Karl Joder of Ludwigshafen, Rep. of Germany. Karl is a descendant of Yost and Caspar Joder of Switzerland. Since the text of the story was in German, Gregory F. Yoder, of Grand Rapids MI kindly translated it for the YODER NEWSLETTER. It follows--

Anna Barbara Joder (she must have been a very beautiful woman), daughter of Yost Joder and Catherine Gerber Yoder, born August, 1750, in Oggersheim, Germany, owned the Hotel Pfalzer Hof.

During the French Revolution (1792-1796) when the revolutionaries destroyed and burned the entire Pfalz (Palatinate), the French General Hoche came with his cavalry to Oggersheim on January 4, 1794, and wanted to have the best quarters.

Anna Barbara offered him her hotel as his headquarters (see picture), and he accepted.

When the French soldiers plundered the small village of Oggersheim, Anna Barbara demanded of the French general that the stolen goods be brought to his headquarters.

Later, when the soldiers left, she then returned the stolen goods to the villagers.

The Hotel-Pfalzer Hof still stands today and is the best hotel in Oggersheim.

Letters to the editor:

My mother was a Yoder and I was raised with my Yoder grandparents on a farm immediately east of where the widow Barbara Yoder had lived in what's now Tilden Twp. (Jerkia Co.). I am a descendant of that branch. As a youngster I spent much time in the family cemetery where some of my amish friends believe that widow Barbara is buried.

What was my grandfather's farm, in the 1960's, he subdivided and sold for building lots. The streets are named after his children, and he turned the farm into apartments. The small community is known as "Yoder Heights" and boasts a population of over two hundred people, my parents now live in the old homestead in Yoder Heights.

(Quite a testimony from a "satisfied customer" of the newsletter. From the information he submitted, we were able to add 15 members to his family tree who had been previously unknown to him. Thus, one of the purposes of this newsletter is beginning to be fulfilled.---editors)

---After years of scrounging for so little information, I was a little resigned. Your newsletter and personal letters were an oasis in the long, dry desert, a tremendous breakthrough to me. Thank you beyond words!

---Sadie Bremner, Salisbury, PA.

---As my father was married four times John D. was the only child from first wife so father married the second time and had five children and when father married my mother, his third wife, by now John D. was a grown boy so he married my mother's sister, later three of John's sons married my first wife's sister: which makes them cousins, nieces and brothers-in-law. My mother then died when I was nine years old and father was 45 when he was a widower for the third time. Five years later he married a widow with nine children and together they had a son. So there were four sets of Yoders, two sets of siblings in one family connection as stepmother's first husband had four children when he married her. This was one of the most mixed-up families I know of.

---Jean Yoder, Stewart, VA.

---I really enjoyed receiving the first Yoder Newsletter recently. The information on the first page was especially important to us because we plan to spend several weeks in Germany and Switzerland during the summer of 1984. Now we have a map and information that will help us locate areas where our ancestors lived in Europe.

Planes Named Yoder Series

YODER, WYOMING

by David Luthy

(The following article, which originally appeared in the July, 1973 issue of "Family Life", has been expanded and updated by its author especially for the YODER NEWSLETTER)

Goshen County is located in the southeast corner of Wyoming and has within it towns named "LaGrange" and "Yoder". To an Amish or Mennonite person this would appear very interesting, for "Goshen" is a town in Indiana and the hub of a large Mennonite settlement. "LaGrange" is the name of an adjoining Indiana county which contains the third largest concentration of Amish in America, and "Yoder" is the second most common Amish surname. Surely this Wyoming County would seem to have real Amish or Mennonite roots.

The origin of the name "Goshen County" does not, however, trace back to Goshen, IN. It is thought to have derived from an early trapper named "Goshe". By 1846 the name "Goshe's Hole" was applied to a rich irrigated farming area. By 1888 it appeared on the map as Goshen Hole. Since "Goshen" is a biblical name, it would appear that someone changed "Goshe" to "Goshen".

The town name "LaGrange" also does not originate from Indiana, it was named after an early homesteader, Caleb LaGrange.

Last but not least is the town named "Yoder". It does, indeed, have an Amish connection. It is about a mile west of US Highway 85 and 12 miles west of the Nebraska state line. Its beginning is closely linked with the Philip J. Yoder family.

Philip Yoder was born in 1836 at Shanesville, Ohio. He was the son of Jacob D. and Barbara (Miller) Yoder, who are listed as "Amish" in both the Christian Fischer genealogy (No.6651) and the Barbara Hochstetler genealogy (No.4881). In 1861 Philip married Cinderella Hattery at Shanesville. The Barbara Hochstetler genealogy lists them as "Mennonite" which they may have been when married, but they did not remain so until death. Their first child, Benjamin, was born at Shanesville in 1863. Shortly thereafter they moved to Iowa where their second child, Amanda, was born in 1865 at Swedesburg in Henry County. Five more children were born in Iowa: Jesse (1869), Oscar (1870), Clara (1873), Ida May (1876), and Sadie (1862).

In the fall of 1881, Philip and his oldest son, Benjamin F., or "Frank" as he was called, went to Wyoming. Frank spent the winter there, while Philip returned to Iowa. The following spring, Philip brought his family to Wyoming; three sons and four daughters with a fifth daughter, Nita, being born there three years later.

The Philip Yoder family settled in Goshen Co. on a ranch along Bear Creek. Philip prospered in raising cattle and horses, his Amish and Mennonite heritage was discarded. In late 1905, after an absence of four years, Philip and his wife traveled back to their native Ohio to visit. Mrs. Yoder suddenly took ill and died in the community where she had been born. Her obituary appeared in the Amish Mennonite newspaper, The Budget, published at Sugarcreek, Ohio in the Jan. 11, 1906 issue. Her remains were returned to Cheyenne, WY, for internment. Four years later, Philip J. Yoder died on July 28, 1910.

During Philip Yoder's lifetime, no town named "Yoder" had existed. In 1921 the Union Pacific Railroad laid track from Gering, Nebraska to South Torrington, Wyoming, the county seat of Goshen, Co. The tracks passed several miles east of the Yoder ranch. Jesse Yoder, Philip's son, organized a Goshen County Development Company to build a new town beside the railroad. The buildings from two tiny crossroad settlements, Spring, and Lacy Corners, were moved to the new townsite. The name "Yoder" was chosen in honor of the Yoder family which had lived in the area since 1891 and for Jesse Yoder who had headed the townsite company.

Real estate offices, measuring a mere 4 by 6 feet, sprang up almost overnight at Yoder. Grocery, hardware, and drygoods stores were soon constructed; also a bakery and a cream station. In 1922 a brick schoolhouse was built and a weekly newspaper was started. That same year, electricity came to town, including even electric street lamps. A rodeo was held that summer to celebrate the founding of the town.

In four years' time, Yoder, Wyoming grew from nothing to a town of between 500 and 600 people. There were three drugstores, two barber shops, three hardware stores, two cream stations, a hotel, a bank, several churches, a bakery, a doctor's office, a community hall, three lumber yards, a telephone office, a rooming house, and a livery stable—not to mention the many residences.

Yoder, Wyoming thrived for about ten years. Then came the Great Depression of the 1930's. One after another of the business places closed and people moved away. The population fell so that by 1970 the citizens numbered 101. Today it is just a sleepy country town with a grade school and a modern post office using ZIP Code 82244.

The Yoder ranch was still owned in 1973 by a Yoder—Philip's grandson, Oscar T. Yoder who had purchased it in 1931. His name is familiar to Goshen County residents for he served ten years in the Wyoming legislature (1955-1965) six in the house and four in the senate.

Update note

We are grateful to the Hon. Oscar T. Yoder of La Grange, Wyoming for the following update to this article written August 7, 1983:

"My current information is that the population of Yoder has stabilized and has gained some after a modest decline. A new water tower is being constructed and a sewer system is installed. Since two years ago the town sign indicates a population of 110, elevation 4245."

"My father was Frank Yoder (A.K.A. was passed away in 1943 at the age of 80. He led a very active life, ranching in an extensive way in the Bear Creek, La Grange, and Goshen Hole areas. I liked to go out east of LaGrange in the home that my grandfather built."

REVELATIONS FROM BARBARA SHIRK’S WILL

Rachel Kreider

Identifying the early Amish Yoders in America and relating them in families has for years been a very difficult exercise. The repetition of names and the conflicting data from early times made the puzzle almost impossible to solve. Descendants of Christian Yoder Der Schweiz were good record-keepers, and when one day I impatiently asked, “Then why didn’t one of them write down who his father was and his uncles and aunts?” the answer was: “In those days all those who mattered to them already knew.”

As it turns out, someone had listed his siblings. On October 22, 1809, one Christian Yoder (Butcher Christ) wrote: “...now I will write down in what years my Father’s brothers and sisters were (born):”

- Aunt Barbara Yoder Born in the year 1725
- Aunt Mattie Yoder Born in the year 1726
- Uncle Christian Yoder Born in the year 1728
- Aunt Elisabeth Yoder Born in the year 1729
- Uncle John Yoder Born in the year 1730
- Father Yost Yoder Born in the year 1732
- Aunt Frances Yoder Born in the year 1739
- Uncle Jacob Yoder Born in the year 1740

Further along in the account, Jacob C. Yoder, his grandson, continued the genealogy and had descended from two different Yoder lines, said that on his mother’s side he was descended from Butcher Christian, son of Yost, who was the son of Strong Jacob. That the above children belonged to Strong Jacob was thus handed down in print from this source, to others, for many years.

Research in the Lancaster Courthouse, however, showed that there was something not right about this. Strong Jacob did have the same names for his children but the dates did not fit. He himself had to be of the same generation as those children. Surely Butcher Christ knew who his grandfather was, but the information from his grandson, who was that much further removed and had a mix of Yoder blood on both sides of the house, was hardly that reliable. By 1970 Dr. Hugh Gingerich of Washington, D. C., had turned sustained attention to the Yoder problems and familiarized himself not only with the individual Yoder families but the Amish families with whom they intermarried. The task was not easy; for example, he found two John Yoders both born about 1732 and each married to an Anna!

As it often happens, the key to the puzzle turned up unexpectedly while in pursuit of other interests. Paul V. Hostetler of Connecticut, grandson of the Hostetler historian who helped Harvey Hostetler compile the Descendants of Jacob Hostetler, who was the famous Hostetler book of 1901, was trying to clear up some problems in connection with his own roots. He was referred to Annette Burget of the Pennsylvania German Society. She responded with a long letter, which confirmed that most of us had been on the wrong track also.

Paul turned up some records that were considered vital in identifying the immigrant Jacob Hochstetler. Whereabouts of wife and children were among the most pressing needs. From these records, Dr. Gingerich was inclined to believe that this is indeed the family of Widow Barbara and that the father therefore died at sea. There has been speculation about his name, some even published as fact, but more evidence is needed.

Dr. Gingerich could now account for all the Amish Yoder males in the first three generations and could make intelligent speculations on the un-named marriage partners, but there was still work to do. Were the heads of the two families brothers? Does it signify anything that the oldest son in each family was Christian? What was the correct separation of children in the two John-Anna families? What is the most promising connecting link with the Anabaptist Joders of that time in Europe? Much progress has been made, but the fascinating process of refining the Yoder family outlines goes on and on. Perhaps we are looking for documentation that no longer even exists!

---000000---

Quoting from the beginning and the end of the will, we find: “To Barbara Shirk of Cocalico Township, Lancaster County, in the State of Pennsylvania...I have hereunto set my hand and seal this seventh day of January in the year one thousand seven hundred and ninety.” She had made her mark. The bequests were made “to my beloved brothers and sisters: viz., Christian Jother, his heirs, Jacob Jother, Michael Jother, John Jother, my sister Magdalene her children, my sisters Anna King and Veronica Hertzel...”

Coupled with information gleaned elsewhere, Dr. Gingerich could now construct a list like this (approximating the dates within several years):

- Catherine ca 1720 m. Isaac Kauffman
- Christian ca 1722 d. 1772 in Berks County
- Magdalena ca 1724 m. Christian Fisher
- Jacob ca 1726 d. 1790 in Lancaster Co.
- Anna ca 1728 d. in Berks County
- Michael ca 1730 d. 1799 in Mifflin Co.
- John ca 1732 d. 1804 in Berks County
- Barbara ca 1734 d. 1790 in Lancaster Co.; second w/o John Shirk
- Veronica ca 1736 d. 1806 in Mifflin Co; m. John Hertzel

The mother of these children, according to persistent tradition, was the famous “Widow Barbara”. To this day there has not been found any satisfactory documentation for this, nor has it been disproved. There are nine children in the family, but eight of them sons, as one son in each family was named Christian? What was the correct separation of children in the two John-Anna families? What is the most promising connecting link with the Anabaptist Joders of that time in Europe? Much progress has been made, but the fascinating process of refining the Yoder family outlines goes on and on. Perhaps we are looking for documentation that no longer even exists!

The families of Jost and Nicolaus Joder of Steffisburg are certainly not the only ones from whom American Yoders may be descended. There are, however, reasons to pay particular attention to these families when attempting to sort out the European origins of various Yoder lines. Some of these are outlined below:

1. Research by Karl Joder and Dr. Don Yoder has identified Hans and Jost Joder (para 10d (1) & (4)) as being the founders of the Oley Valley Yoder branch and the first of the name in America.

2. Karl Joder has established that 1820 Amish immigrant Michael Yoder was the grandson of Jacob Joder, son of Hans Joder and Catherine Esch (para 91 (3)).

3. Five children of Jost Joder (para 9) were identified in 1690 Steffisburg records as suspected Anabaptists: Peter (9d); Jakob (9e); Anna (9f) - wife of Christian Blank; Christian (9h); and Caspar (9l).

4. Two children of Nicolaus Joder have known or suspected Anabaptist links: Jost (para 10h) was a suspected Anabaptist in 1690; Salomea (para 10i) and her husband Hans Gerber were labeled Anabaptists in 1691.

5. The Staatsarchivs of Bern show a record of 7/16/1690 the government orders the provincial governor of Traschelwald to find out whether the Anabaptists Jost Joder and Christian Blank of Steffisburg, as have been reported, are staying in Schangnau and whether they took their capital with them. As soon as this is ascertained, a report shall be given to the Tauerkammer there. Were these 10h and 9f? It seems likely.

6. The Staatsarchivs of Bern show in a record dated 4/8/1695: "The Anabaptist Christian Joder, of the jurisdiction of Steffisburg, has left the country. For the property he took along he must pay a 5% fee of 10 lbs(?)" Was this 9h? Possible.

7. Erlenbach, reported home of Amish founder Jacob Amman, is only about ten miles distance from Steffisburg. When Amman made his tour of 1693 to seek support for his theological ideas, one of the ministers accompanying him was a "Christian Blank". Can anyone of our readers shed light on whether this was the same man as at para 9h?

8. One Hans Joder, known to have been with Amman at Heidelberg in Alsace in 1711. Could this have been the same as the man at para 10i?

COMING IN ISSUE #31: New material from Ken Hottel, Allentown PA, on Hans Joder of Upper Bucks Co., PA (Great Swamp). Dorothy Coffman, of Valley FA has found new material on the Montgomery Co. Yoders.

The Jost annual Yoder family reunion was held Sunday(13th of August) at Zion Lutheran Church.

The North Carolina Yoders are descended from Germanic-Swiss pioneer Conrad Yoder, who came to Catawba County around 1750. His grave is just south of Zion Church, which his children helped start in the 1790's.

President Jimmy Yoder opened the meeting. Richard Yoder presented memorial roses to the families of seven clan members who died during the last year, and reported on the Yoder Newsletter, a new national family publication.

He and Dr. Larry Yoder of Lenoir-Rhyne College reported that the memorial to Dr. Robert Anderson Yoder, first president of the college, is nearing completion on the site of the razed Yoder Building on campus.

They urged all family members and friends to designate any gifts to the college for the memorial since the clan earlier agreed to support the memorial.

Next year's reunion will be at Zion Church on the second Sunday in August.

The 1000-page volume which traces over 140 Amish surnames from immigration to an arbitrary date of 1850 is nearing publication. Dr. Hugh P. Gingerich, PhD, of Washington DC and Rachel W. Kreider, FA, of Goshen IN have compiled data that represents 10 years of diligent research.

The Yoder section will cover the most pages, with millers a close second. This covers only the Amish Yoders mentioned in Section 1 of the first issue of the YNL which shows the maps.

The prepublication price is $35.00, plus handling and shipping for individual orders. You may order from: Levi L. Stoltzfus, Treas., 98 South Graffdale Road, Leola PA 17540.

Who was the brother of Conrad Yoder, early pioneer founder of the North Carolina clan, who was supposed to have gone west in the early 1700's? Anyone who can give a clue on this please contact the YODER NEWSLETTER, P. O. Box 594, Goshen IN 46526.
